but there was no way out of it. The Sheriff stuck around so long that finally show had to put the paper in his hand. He gripped it firmly and glanced gratefully at Mr. Woodruff.

"You know," said the Sheriff yesterday before the court order reached him, "it"s a tough position for a man to be in. I suppose I will have to stop the meet tomorrow. Looks like a clear violation of the law. But I wouldn't want to make a mistake. I'm pretty heavily bonded, if I shipped up it wouldn't be pleasant, how would it? But I've got a hunch. I tank something will happen before evening."

Mr. Woodruff, who was in politics before aviation claimed him, made several speeches last evening after the situation had been cleared to the effect that people had better let him alone or he would make trouble for them. -The Metrostyle Pianola Music Roll which anyone can

Do you realize that practically every piece of good music ever written has been put into the form of a Pianola music-roll that you can play?

Think what this means! The privilege of hearing whenever you wish, the music of any Opera you have ever listened to! Or any Concert selection! Or any Waltz, March, Song! All the interesting music for two hundred years past! All the bright, happy music of today!

And all this music you can play, yourself. No one can tell you what this means. You must experience the fascination of producing music, to appreciate the keen, personal gratification it gives you.

## The Pianola Piano Makes You an Artist in Your Playing

It alone, of all player-pianos has the Metrostyle and the red interpretation line on its music. Follow this line with the Metrostyle pointer attached to the tempo-lever, and you interpret the selection with all the skill of a trained musician. There can be no monotony in your playing of the Pianola Piano. The Metrostyle absolutely precludes this.

Moreover, the Metrostyle is not arbitrary. It thoroughly teaches you the thousands of pieces in the Pianola repertory, which you do not know, and shows you just how

great musicians play them. But you are always at liberty to vary the expression to suit your own taste or mood of the moment.

If you have no pland, let us tell you how little it will cost you per month to own a Pianola Piano, which can be played either by hand or with the music roll. If you already own a piano, which you cannot play, let us give you an estimate on what we will allow you on it, in
